

**Wondering who the other dinosaurs  
are in *My Big Wimmelbook—Dinosaurs?***

Every cool dino has a special scientific name.  
They might be hard to say at first, but keep  
practicing. See if you can learn them all!

My Big  
WIMMELBOOK®

DINOSAURS

1. Troodon
2. Brachiosaurus
3. Protorosaurus
4. Ceratosaurus
5. Argentinosaurus
6. Dimetrodon

7. Compsognathus
8. Longisquama
9. Coelophysis
10. Tupuxuara
11. Styracosaurus
12. Allosaurus

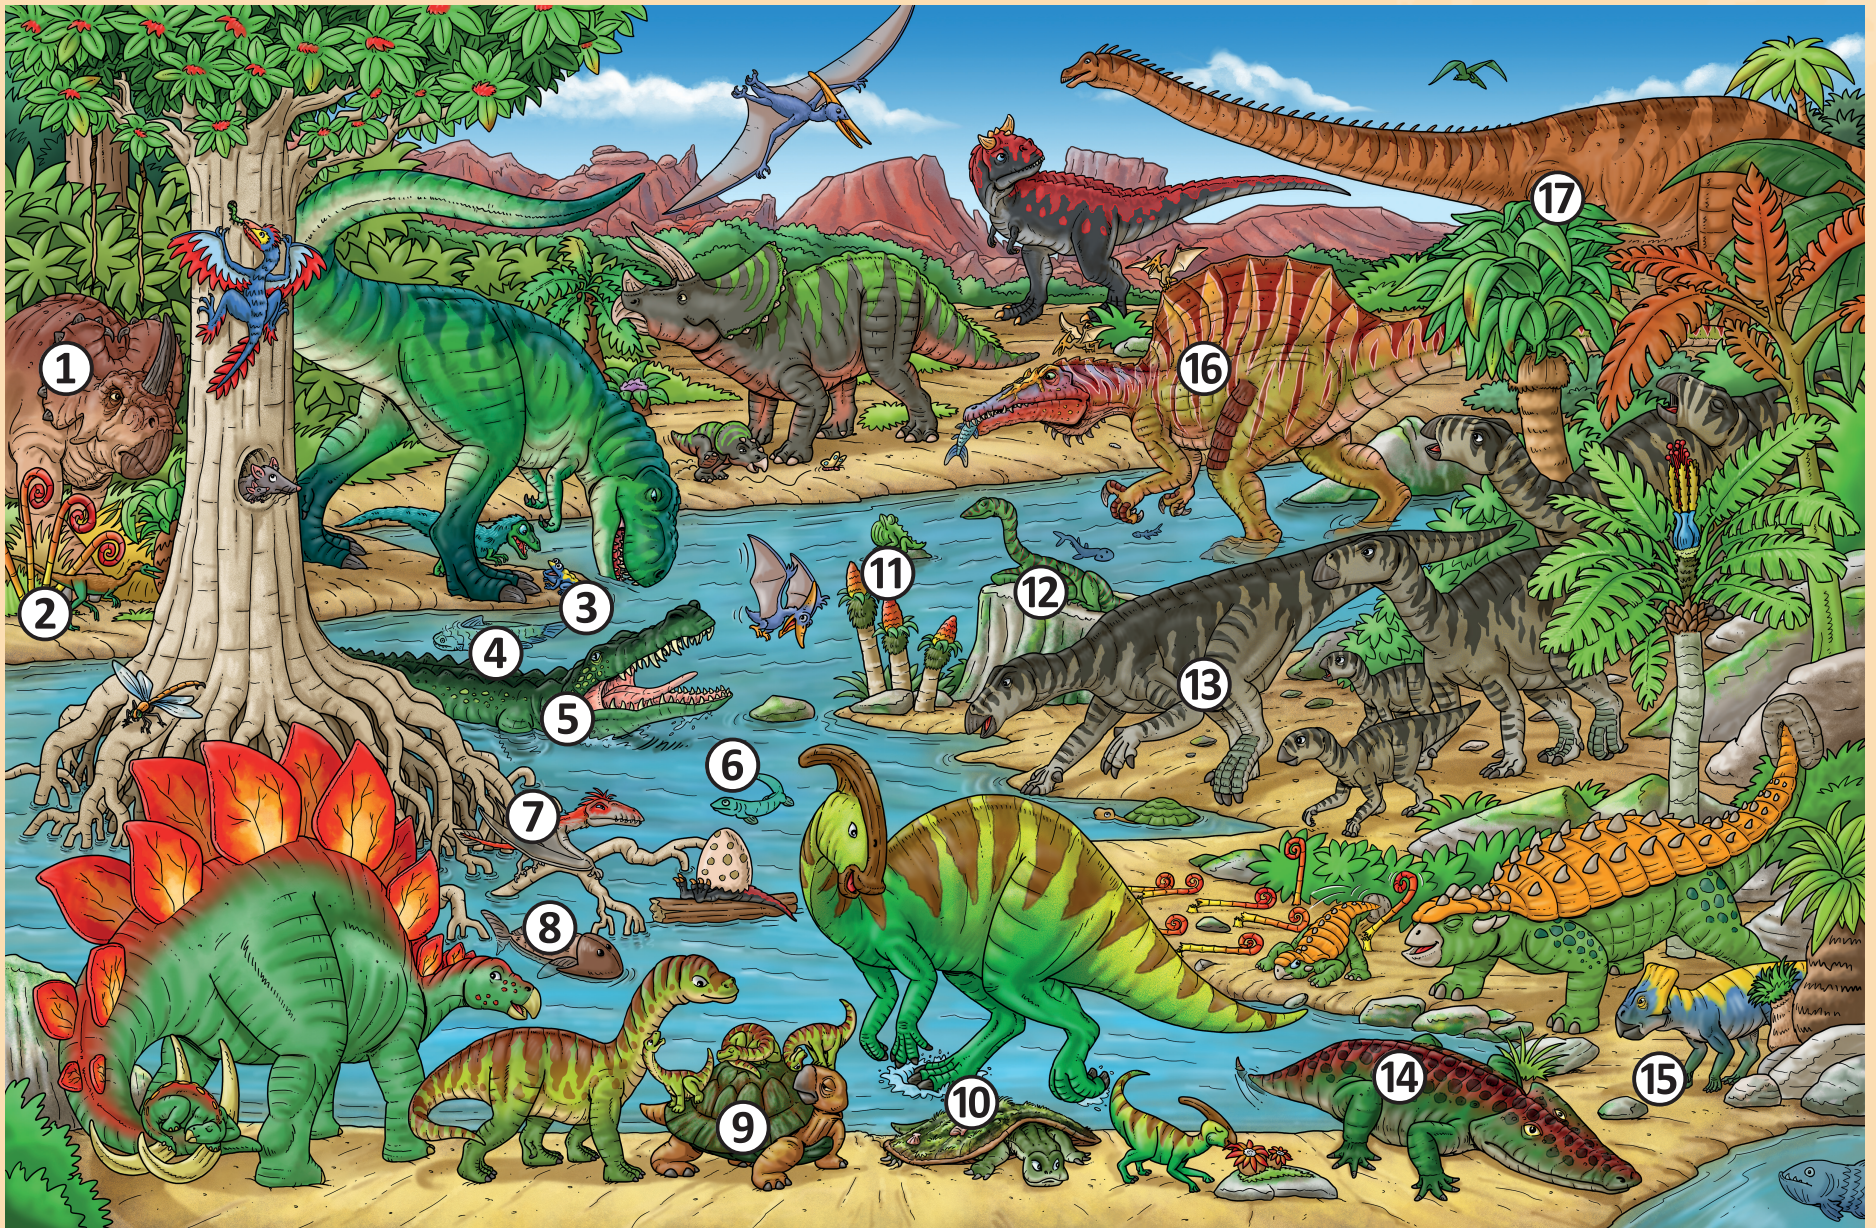

13. Quetzalcoatlus
14. Scutosaurus
15. Labidosaurus
16. Kuehneosaurus
17. Arthropleura

1. Megalosaurus
2. Struthiosaurus
3. Therizinosaurus
4. Bagaceratops
5. Gracilisuchus
6. Terrestrisuchus

7. Pachycephalosaurus
8. Dsungaripterus
9. Kentrosaurus
10. Giganotosaurus
11. Dilophosaurus
12. Deinocheirus

1. Centrosaurus
2. Shuvuuia
3. Triadobatrachus
4. Acanthodes
5. Deinosuchus
6. Microbrachis

7. Dimorphodon
8. Hemicyclaspis
9. Testudo
10. Henodus
11. Palaeobatrachus
12. Nothosaurus

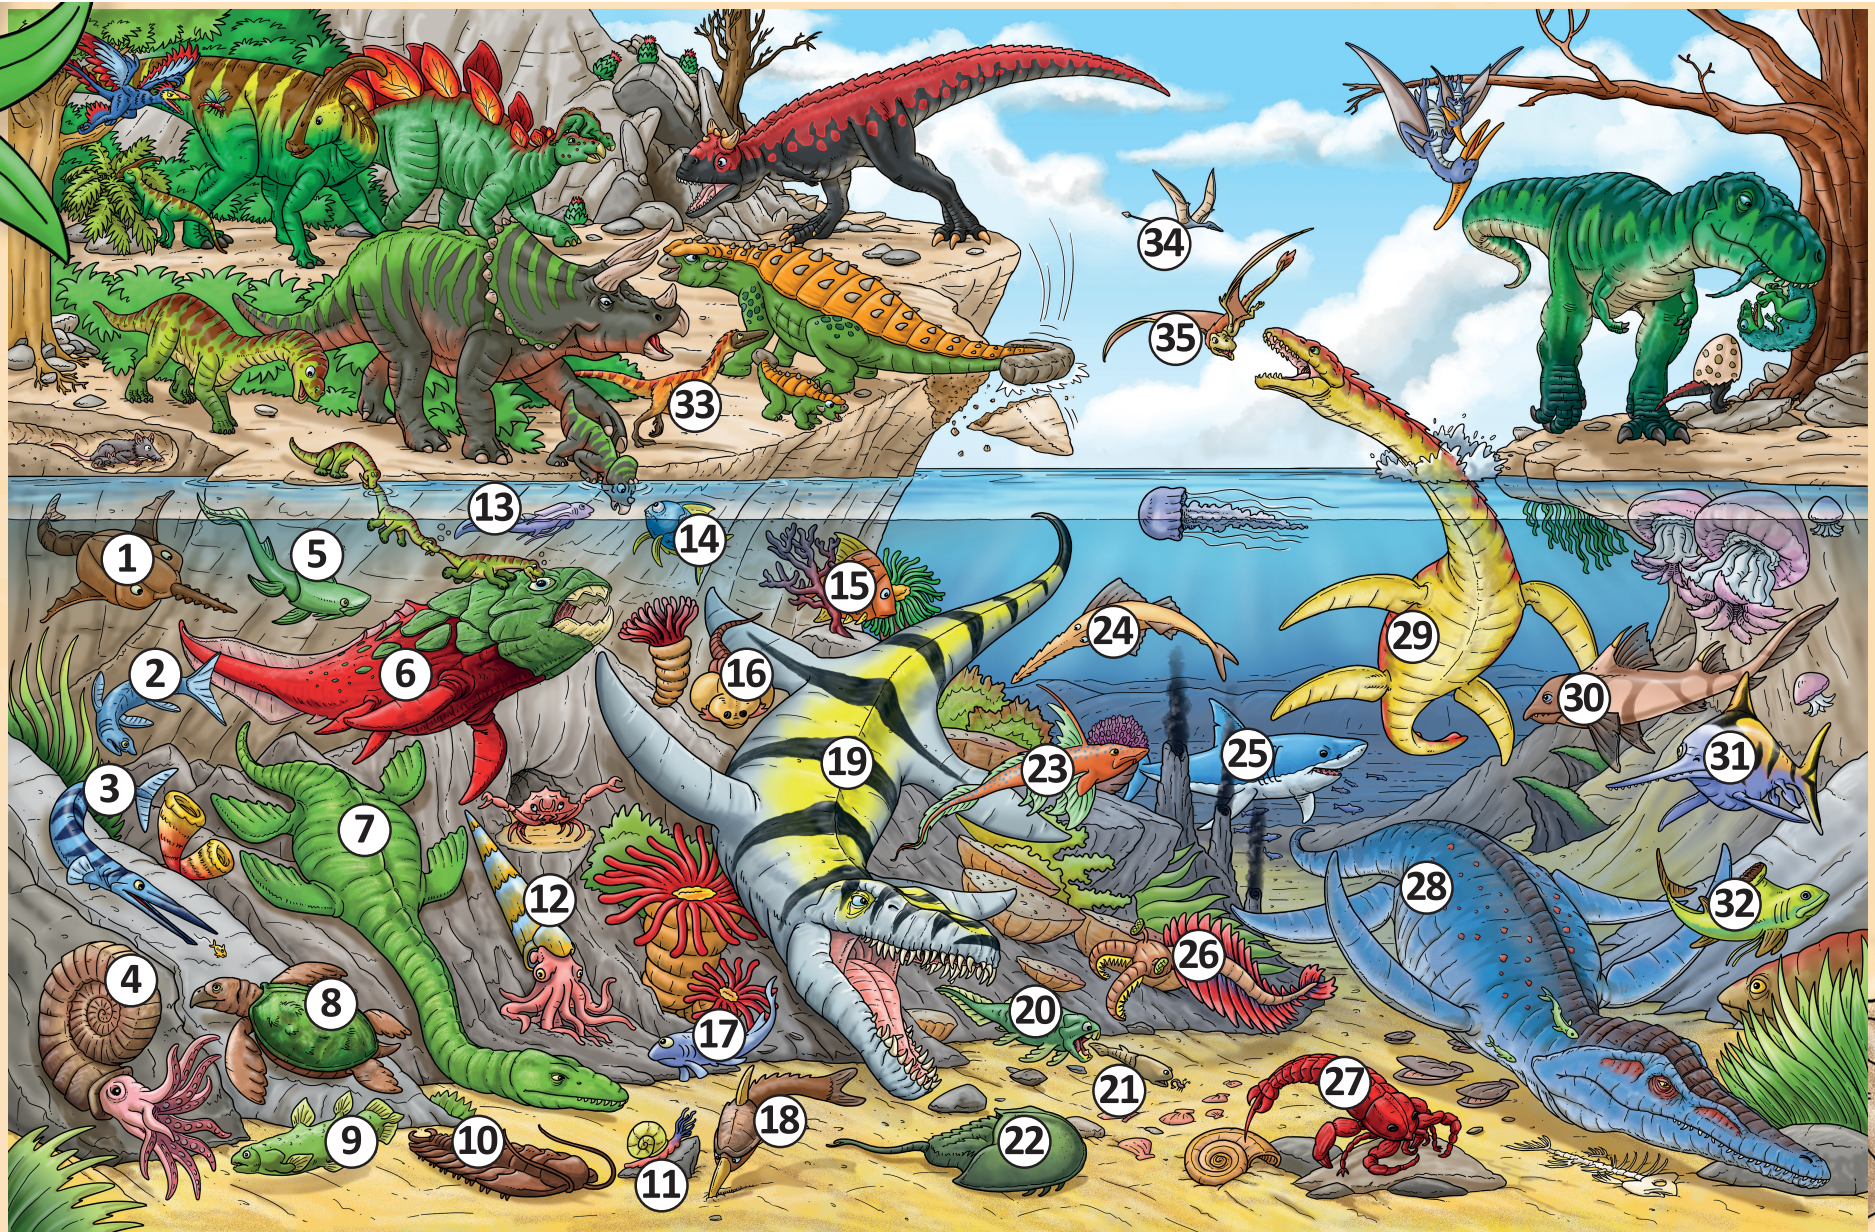

13. Iguanodons
14. Eryops
15. Microceratops
16. Spinosaurus
17. Diplodocus

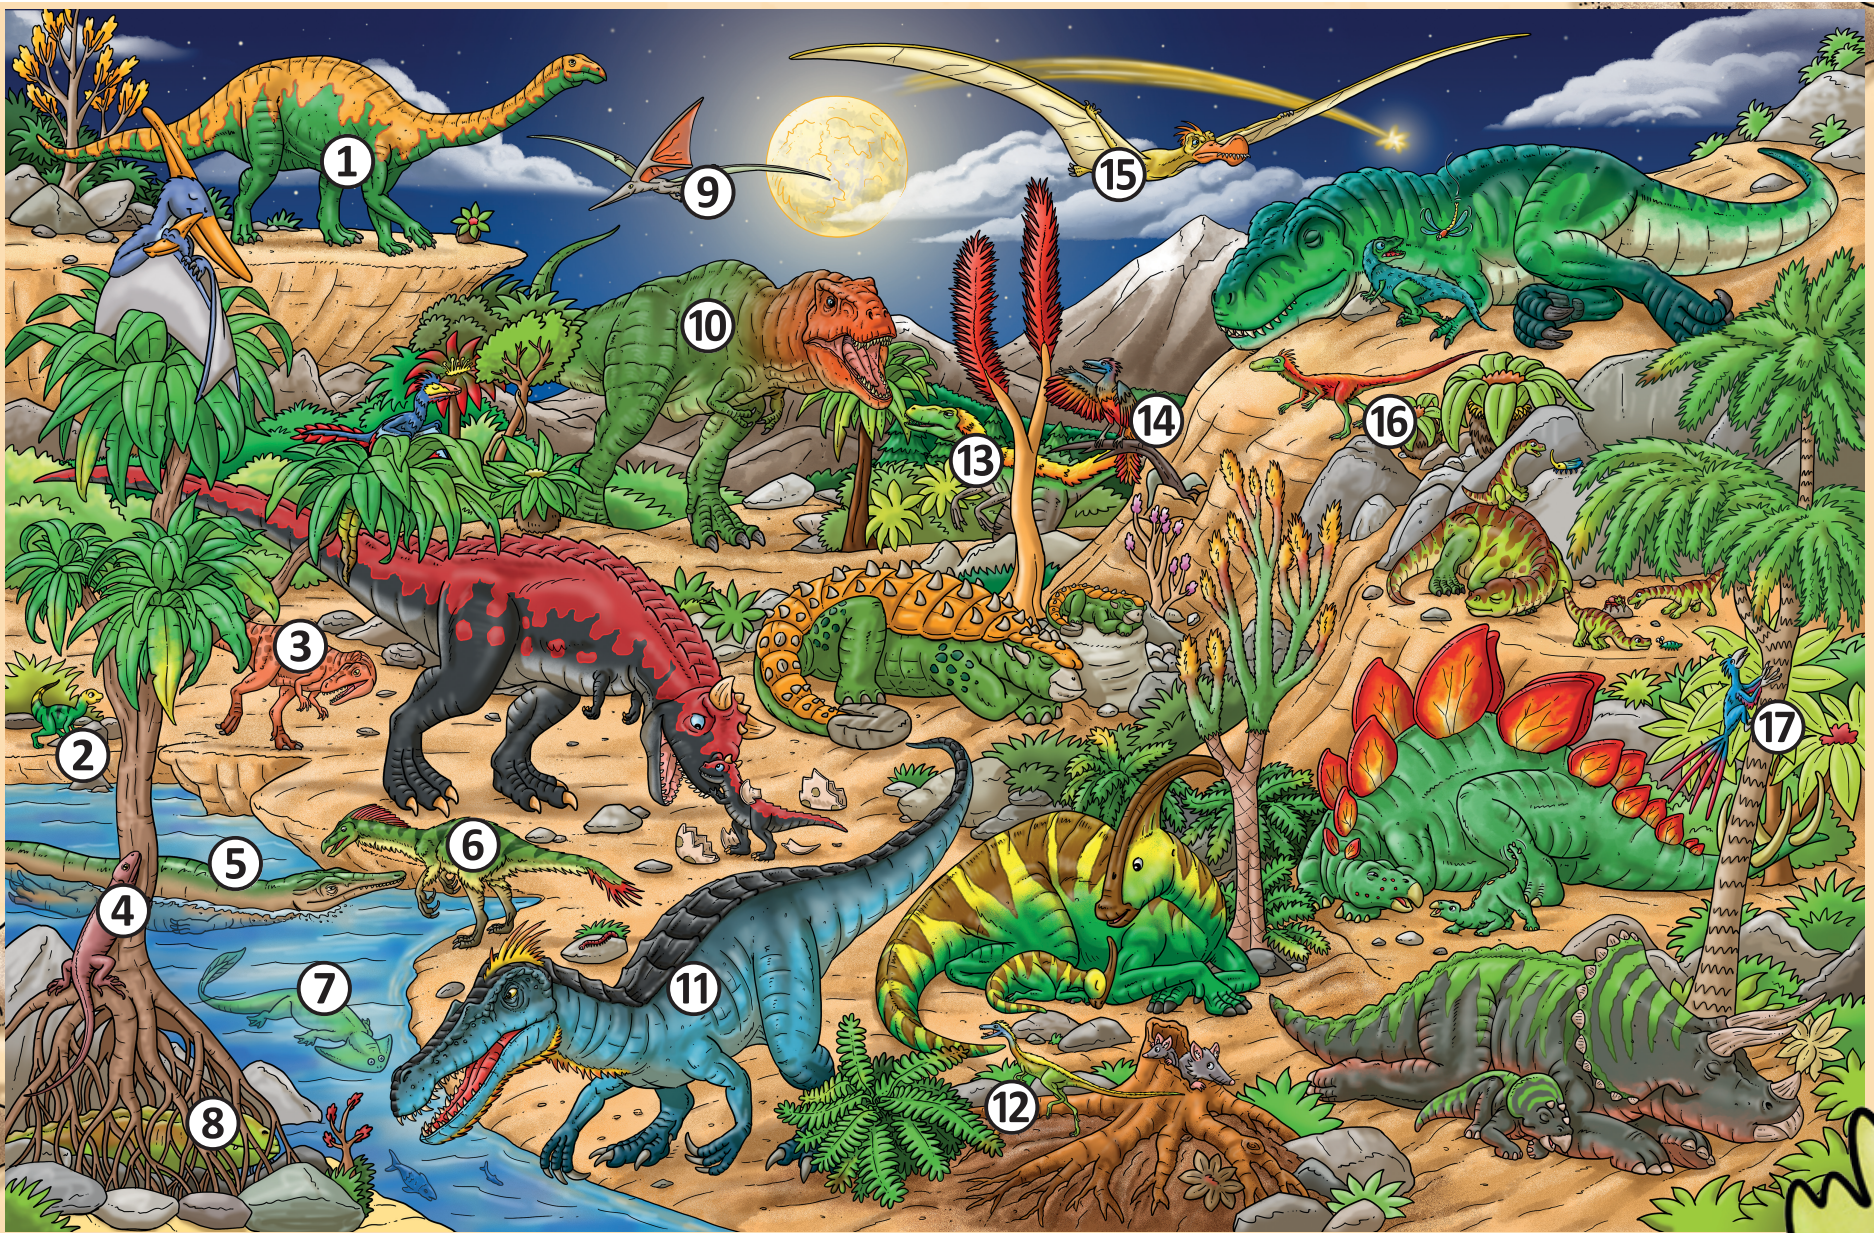

1. Megarachne
2. Oviraptor
3. Cearadactylus
4. Ardeosaurus
5. Gallimimus
6. Hyperodapedon

7. Velociraptor
8. Tenontosaurus
9. Erythrosuchus
10. Thalassodromeus
11. Alamosaurus
12. Acrocanthosaurus

13. Boreaspis
14. Tanystropheus
15. Xenacanthus

- |                   |                |                  |                     |                   |                     |
|-------------------|----------------|------------------|---------------------|-------------------|---------------------|
| 1. Doryaspis      | 7. Macroplata  | 13. Bothriolepis | 19. Liopleurodon    | 25. Megalodon     | 31. Eurhinosaurus   |
| 2. Cobelodus      | 8. Archelon    | 14. Platysomus   | 20. Coccosteus      | 26. Anomalocaris  | 32. Stethacanthus   |
| 3. Saurichthys    | 9. Coelacanth  | 15. Pycnodus     | 21. Tremataspis     | 27. Pentacopterus | 33. Sinosauropteryx |
| 4. Ammonit        | 10. Trilobite  | 16. Gemuendina   | 22. Horseshoe Crab  | 28. Kronosaurus   | 34. Eudimorphodon   |
| 5. Groenlandaspis | 11. Gastropod  | 17. Ctenurella   | 23. Ischyodus       | 29. Elasmosaurus  | 35. Sordes          |
| 6. Dunkleosteus   | 12. Cyrtoceras | 18. Pteraspis    | 24. Scapanorhynchus | 30. Hybodus       |                     |

1. Plateosaurus

2. Saltopus

3. Herrerasaurus

4. Lagosuchus

5. Metriorhynchus

6. Beipiaosaurus

7. Diplocaulus

8. Diadectes

9. Nyctosaurus

10. Tarbosaurus

11. Baryonyx

12. Shuvuuia

13. Deinonychus

14. Archaeopteryx

15. Ornithocheirus

16. Dilong

17. Epidexipteryx
